

Hello Golfers,

With the end of the outside golf season ending soon we are getting ready for our simulator season. Just like last year we will be offering a senior league (55+ Years Old) and our regular league. These are both floating leagues which means you can play any day from Monday to Sunday. If you have a vacation planned, you can play ahead weeks, but you cannot play back. The leagues are 15 weeks long and run from November 14th thru March 12th. These are partner leagues which offer a 2-person event each week along with a low net individual and low gross individual event (for the open league) each week. These leagues are both handicapped for scoring purpose. You will get a handicap when you create a profile.

We are going to be offering an early bird special on the 10-hour punch cards this year. The offer is good from now until November 13th. For the senior league the price will be \$240 for a 10-hour card (regular price \$275) and for the open league \$340 for a 10- hour card (regular price \$375). Prices per hour will be \$30 per hour before noon Monday thru Friday and \$40 per hour after noon and weekends.

Cost to join the leagues will be \$120/ Player for the senior league and \$130/ Player for the open league. The cost went up since we added 3 more weeks. Included with this cost will be an opening meeting and closing banquet with food and some games on the simulators plus the weekly event winners will get paid in shop credit at the end of the year. For the senior league we kept the same format as last year with a different 2 player event each week and a low net each week with a 36-hole combined score championship week #14 and week #15 to determine the winter league champions. **The regular league will be different this year. We are going to do the same as the senior league and have a different 2 player event each week plus the low net individual and a low gross individual. Also, we are going to have a few OPTIONAL CASH GAMES. There will be a weekly Low Net Game and a weekly Skins Game. Both will be \$5 CASH. With the cash games you can pay week to week, or you can pay all of it upfront and not have to worry about it all winter. The cost for the whole year of cash games would be \$75 for one or \$150 for both. Please bring the cash to the first event or the meeting if you plan to pay for the whole year.**
